

## APPLYING FILTERS

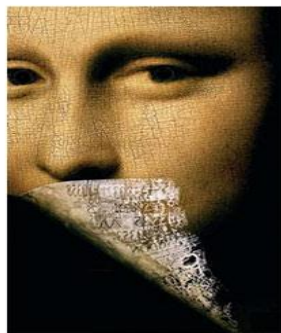

---

Download the images **leon.jpg**, **ojos.jpg** y **moto.png** in a folder called **Filters** inside your unit folder.

- Apply a distort filter to *leon.jpg*
- Apply a filter to remove the red eyes to *ojos.jpg*
- Regarding the file *moto.png*. First delete the car, and the clothes, and then apply a motion filter to it. You can use the clone tool  to delete the car and the clothes.

At the end, you must get something like this

Save (export) each image as **leon2.jpg**, **ojos2.jpg** and **moto2.png**, in the same folder than the originals.
